2018.12.19 Amendments passed during the 4th Academic Committee in the 2018 academic year
2020.6.17 Amendments passed during the 16th Academic Committee in the 2019 academic year

- I. Purpose: These Regulations have been established to provide incentives for NTNU full-time faculty members to engage in beneficial interactions and collaborations with industry participants, thereby broadening the applicability of NTNU's research efforts to contribute towards industry development.
- II. The Industry-Academia Cooperation (the "Cooperation Project") rewarded under these regulations shall refer to any project executed by an NTNU full-time faculty members using NTNU's name in association with a natural person, a government agency, a civil organization (corporation, foundation), a state-owned enterprise or a private enterprise (the private enterprise must have been incorporated and registered in accordance with local or foreign regulations), for which the rights and obligations are outlined in an agreement created according to National Taiwan Normal University Industry-Academia Cooperation Regulations.

Where a Cooperation Project involves a government agency, when calculating eligibility for rewards, rewards are given only if the project receives matching grants from a state-owned or private enterprise. In the above situation, the amount of reward is calculated only based on contributions made by state-owned and private enterprises.

Budgets that span multiple years shall be handled in accordance with the Higher Education Database Indicator Manual.

For applicants who have been granted this reward, all Cooperation Projects, technology/copyright licensing and royalties achieved before the year rewarded shall no longer be eligible to apply for further rewards under these regulations, whether or not such achievements have been taken into consideration during the conferment of the previous reward.

III. Rewarded candidates:

(I) Candidates who satisfy any of the following criteria may apply for the Industry-Academia Cooperation Excellence Reward :

- (1) A full-time faculty member of NTNU who has signed a Cooperation Project with a total budget reaching NT\$800,000 and above (inclusive) and was charged administrative expenses reaching NT\$80,000 and above (inclusive) in the previous one year in NTNU's name according to administrative processes, and having completed the project as the principal investigator (calculation be based on the year in which the project ended).
- (2) A full-time faculty member of NTNU who has signed Cooperation Projects with a total budget reaching NT\$1,200,000 or above (inclusive) and was charged administrative expenses reaching NT\$120,000 or above (inclusive) since 2011 to the year before application in NTNU's name according to administrative procedures, and having completed the project as the principal investigator (calculation be based on the year in which the project ended).

(II) Candidates who satisfy any of the following criteria may apply for the R&D Results Promotion Excellence Reward:

- (1) A full-time faculty member of NTNU who has arranged technology transfer or copyright licensing in the previous one year in NTNU's name according to administrative processes and has generated more than NT\$300,000 (inclusive) in licensing fees and royalties.
- (2) A full-time faculty member of NTNU who has arranged technology transfer/copyright licensing agreements and generated NT\$500,000 or more (inclusive) worth of licensing fees/royalties since 2011 up until one year before the application in NTNU's name according to administrative procedures.
- (3) A full-time faculty member of NTNU who establishes a Spin-off Firms from R&D Results in accordance with the National Taiwan Normal University Spin-off Firms from R&D Results Regulations, and licensing fees/royalties distributed to NTNU reaches NT\$500,000 or more (inclusive).

IV. Rewards:

Faculty members who satisfy the criteria in Article 3, Paragraph 1 are entitled to a reward of 20% of administrative expenses from the award winning project (limited to NT\$100,000) and a commendation certificate.

All faculty members who satisfy of the criteria listed in Article 3, Paragraph 2 are

entitled to a reward of NT\$30,000 and a commendation certificate.

- V. Source of funds: This reward shall be funded by NTNU under the account - Academic Research Promotion.
- VI. This reward may be applied for between March 1 and March 31 each year. To apply, the applicant needs to submit an application form (see Attachment) and furnish photocopies of relevant agreements to the Division of Research and Industry Liaison, Office of Research and Development.
- VII. These Regulations have been passed with approvals sought from the Academic Committee, and is implemented with the approval of the President.
